**Sarah Dellière**, Paris, France (TAE)  
**Valentijn Schweitzer**, Utrecht, Netherlands (TAE)  
**Olayinka Fakorede**, Iwo, Nigeria (IFMSA)

## Course Objectives

The course aims to educate current and future healthcare professionals in current practices and state of the art research focusing particularly on pregnant women and children in the context of the ongoing COVID-19 pandemic. Through interactive educational activities the course aims to improve the knowledge and understanding of medical doctors, trainees and medical students concerning these two special patient populations and to contribute to the reduction of maternal and childhood burden associated with COVID-19.
